

370 *HTC*

Exuding an unmistakable sporty legacy, this model boasts sleek lines and edgy exterior elements that leave no doubt about its heritage. While sharing functional similarities with the flybridge model, the HTC differentiates itself through a generous sunroof and a glass panel enveloping the main living space, enabling the driver to create an open-air experience by moving the roof, starboard, and aft doors for improved access and ventilation.

The cockpit's centerpiece is an adaptable L-shaped modular sofa that transforms into an aft-facing sun pad. While the bow sun-decks are ideal for stationary relaxation, the addition of a seat with back support caters to adventurous souls seeking an exhilarating bow ride during cruising. Within the main living area, an expansive dining table for six stands opposite a well-equipped kitchen, brimming with storage for weekend getaways.

READY FOR ADVENTURE

The helm station, encircled by windows ensuring exceptional visibility, also benefits from sliding doors for swift mooring maneuvers. The option of multiple interior finishes invites customization.

Beneath the hardtop, the ingenious three-cabin layout remains intact, accommodating six berths distributed among two doubles and a twin with bunk beds. Crucial areas retain standing height, while the separation of the head and shower ensures dryness.

The 370 HTC seamlessly blends striking aesthetics with a thoughtfully designed, functional interior, fulfilling a comprehensive checklist for both style and practicality.

HARDTOP LINE

The 360 FLY's hardtop version enhances performance and style, maintaining its clever interior features. With a dynamic silhouette and expansive glass roof, it's an instant eye-catcher.
